

Checklist for Choosing an ERP Implementation Partner

As you compare various ERP partners, check off the following items if they meet the criteria. The more you check off, the better off you'll be with a particular ERP implementation vendor.

- The company offers ERP technical service and ongoing support
- The company's methodologies are based on actual experience
- The company provides extensive training for your team to get the most out of your ERP investment
- The company is a good cultural fit with my organization
- The company has an understanding of global business success.
- The company offers a wide range of ERP software selection (both cloud-based and on-site) implementation, organizational change management, business process reengineering, IT strategy and project recovery services
- The company has expertise in every facet of an ERP implementation
- The company offers complementary services like backup and disaster recovery, hosting, and proactive IT support

We think you'll find NSA Computer Exchange offers everything you need in an ERP implementation partner. After you've compared your options and are ready to work with us, give us a call at 516.240.6020.
